

SMSBF

Southeast Michigan Sustainable Business Forum

+ PLANTS, ENERGY EFFICIENCY & INDOOR AIR QUALITY

Shane Pliska, the President of Planterra, will speak about indoor plants and the conservatory in which they are housed. Reclaimed & Recycled Wood, Recycled Rainwater, Natural and Recycled Materials and Natural Habitat Restoration were utilized during the planning and construction of the conservatory. Solar energy provides heat and light to the conservatory, and the physical orientation of the structure allows for cooler temperatures during summer and preserves heat during cold winter months. Presentation includes a tour of the conservatory.

+ July 21, 2011
8:00 - 10:00 A.M.

Planterra Corporation
7315 Drake Road
West Bloomfield, MI 48322

Located between 14 Mile and West Maple
on the East side of the street.
